## EDUCATION

### Computer science and network engineering

national institute of applied science and technology

09/2017 - Present

Courses

- Cybersecurity

## WORK EXPERIENCE

### Internship

Athena Experts

08/2020 - 08/2020

Cybersecurity internship

Achievements/Tasks

- Developing a penetration testing platform
- Setting up Linux machines for penetration testing
- Deploying the platform and the machines

### Technical manager Securinets

09/2019 - Present

Cybersecurity national association

Achievements/Tasks

- Participating in CTF organization including task making and setting up the infrastructure for the CTFs
- Supervising a network security workshop where we built network attacks tool
- Supervising a Mobile reverse engineering workshop

## ORGANIZATIONS

Securinets (09/2018 - Present)

Member

Securinets (09/2020 - Present)

Media Manager

Fword CTF team (12/2018 - Present)

CTF Player

## SKILLS

Python

Django

C/C++

JAVA

BASH

Docker

Linux Administration

Pentesting

Reverse Engineerin

Malware analysis

## PERSONAL PROJECTS

Network Security Tool (03/2020)

- A tool that help in performing multiple security attacks on a network and scanning all devices connected

## ACHIEVEMENTS

2nd place CSAW MENA 2020 (10/2020)

Achieved 2nd place in CSAW MENA 2020 CTF after 48h long competition

Ranked among the top 60 teams in the world in CTFs (2019 - 2020)

Team Fword: <https://ctftime.org/team/72251>

## LANGUAGES

Français

Professional Working Proficiency

English

Full Professional Proficiency

Arab

Native or Bilingual Proficiency

Deutsche

Elementary Proficiency

## INTERESTS
